Dear high school official/teacher,

Computer Science department of the University of Texas at Dallas has touched 1000s of school students' lives through Programming Workshops and Summer Camps in the past 2 years. We are thrilled to invite your students to our campus to participate in programming contests and Summer Camps:

State-level Programming Contest on May 30-31 We are excited to team up with TCEA and conduct a state-level contest @ UT Dallas. See utd.edu/k12/contest for details and registration. We will be covering the hotel and food cost for all out-of-town participants to make it easier for you and parents! We are planning for exciting STEM demos and local industry visits as well. April 25 is the new deadline to register.

~100 Programming Summer Camps in 11 weeks! Computer Science department of UT Dallas is thrilled to offer nearly 100 hands-on Programming Summer Camps to school students (3rd graders and up). We introduce programming to our young guests in enjoyable manner using Animation, Drawings, Music and Robots. Animation using Scratch, Enjoyable Programming using Alice, Enjoyable Programming using JavaScript & Intro to programming in Java are a few popular Summer Camps. See utd.edu/k12/summer for the full list and registration details. Our rates are very reasonable - just $200 for one full-week camp (includes 5 lunches, snacks, T-shirt and certificate). Additional discounts available for low income students and school teachers. Techy Girls Residential Camp Any girl 16 to 18 years old (Girls entering 11th or 12th grade in Fall 2014) is eligible to apply; No programming experience necessary. Camp will run from Monday July 14th at 9 am - Thursday July 17th at 1pm. Following topics will be covered: Animation in Alice using Drag-and-drop programming, Fancy Drawings using JavaScript, Controlling Robots using Python & Mobile Application Development. Students need to submit the application and additional documents mentioned in utd.edu/~veerasam/flyers/techygirlscamp.pdf first. You will get the instructions to pay the registration fee upon approval.

Residential Option for students from other cities You do not need to be a Dallas area resident to attend UT Dallas Summer Camps! We are opening our doors (literally) to students who live in other cities/states/countries! See utd.edu/k12/residential for details. We have worked hard to arrive at reasonable pricing. Note that multi-week stay includes weekends.

Off-site camps at your location! If you do not want to come to us, we can come to you :-) If you prefer us to come to your place to conduct Summer Camps so that lot of your students can benefit, we will be happy to do so - Review utd.edu/~veerasam/flyers/utdcsor_offsite.pdf and email us to get started.

Robotics Camps The Science and Engineering Education Center (SEEC) at the University of Texas at Dallas is a leader in STEM education and PBL teaching initiatives in Texas. This year we are offering students a variety of summer camps to provide exciting enrichment opportunities in STEM. We are offering middle school camps in Robotics both LEGO Robotics (used in

FIRST LEGO League) and Tetrix Robotics (used in FIRST Tech Challenge). We are also offering high school camps in building a solar car, introduction to space with rockets and weather balloons, and quad copters. More information is at our website at utd.edu/seec/SummerCamps2014.html. These camps provide a wonderful opportunity to learn more about science, technology, engineering and mathematics. We look forward to see you this summer!

You can access the flyers @ http://utd.edu/~jeyv/events.pdf, print and display in the bulletin boards. Thanks for your time and have a great Summer!
