Shopping Carts/SRM

HISD has enabled **External Catalog** (Punch-Out) capabilities within the SAP-SRM portal. Additionally, all Internal Catalogs have been updated with current items and pricing. When placing an order with suppliers that have an External Catalog, it is important that all users begin utilizing the Punch-Out process and cease creating free text orders. In an effort to ensure that the many advantages of the Catalogs are realized, free text orders placed with suppliers that have either an External or Internal Catalog enabled will be rejected upon receipt.

This purchasing process will relieve the labor intensive process, reducing time and delivery of goods.

Here is how it works:

- When shopping cart is opened through SRM, the supplier's external catalog can be selected via hyperlink and will transport the user directly to the supplier's HISD approved website for ordering. Once the order is completed, select check out and the entire shopping cart will be transferred back into the SRM system for processing.

Once all of the information is entered in SRM (Unloading point, Cost Center, General Ledger Account, and Fund) click ORDER and the shopping cart will be transported to the approver's UWL.

Suppliers that have Active External Catalogs:

- S&S Worldwide (Athletic Supply)
- Lakeshore Learning (Classroom Supplies and Pre-K Furniture)
- Enhanced Laser Products (Re-manu & OEM Toner)
- Office Depot (Office Supply)
- Blick Art Supplies (Art Supplies)
- Carolina Biological (Science Supplies)
