Summary of Proposed Project

Using only the space provided, briefly outline the concept of the proposed project. Attach this form to the Intent to Apply form and submit both forms to the Grant Department.

Process for Grants Submission

The HISD Grant Development Department seeks to provide high-quality support and assistance to Houston Independent School District grant-seekers to maximize the amount of funding available to support all phases of the educational process. HISD has policies and procedures in place to regulate and provide guidance for all phases of the grant process. The policies apply to the grant development process regarding applications and proposals. In order for the Grants Department to be able to assist schools and departments in the submission of a high-quality proposal, all schools and departments must adhere to board policy CBB2 (Regulation), the procedure for submitting grant applications or proposals to an outside funding source. The policy is as follows:

- a. The draft application and proposed budget must be submitted electronically to the Grant Development Department at least **ten working days** before the application is due to the funding source. The electronic copy may be presented on a disc, flash drive, or via e-mail. The grant application must include the grant ownership (i.e., principal or department head name).
- b. The documents will be reviewed by the Grant Review Committee. The Grant Review Committee reviews applications for clarity and ensures that the District's policy, grant guide-lines, and state and federal regulations are followed. Budget draft proposals are sent to Budgeting and Financial Planning for review and accuracy. Reviewed applications and corrected budgets are returned to the school or department within two days of receipt by Grants Department.
- c. The school or department must submit the revised application and budget, along with the necessary attachments (e.g., letters of support, résumés, and the like), to Grant Development five working days before the application is due to the funding agency. The documents are forwarded to the Superintendent for approval and signature.
- d. Grant Development forwards the signed application with attachments to the funding agency in hard copy or electronic format depending on the size of the grant application or as stipulated by the grantor. Grant Development retains a copy of the pending grant application and attachments.

Grant proposals that do not follow this process are in jeopardy of not being submitted. If documents do not follow the process, the Superintendent or his designee will receive a statement reporting that the document was late, as well as the department or school responsible for the project.

Signature of Principal or Manager or above: _____
