

# 2020 STUDENT ASSESSMENT SUMMIT

The big game day is approaching and the Student Assessment Department is here to help you shoot the ball into the net and score major points! Leaders and Teachers will learn how to gear up with Data Driven Instruction, run interference to avoid testing irregularities, block & tackle to ensure STAAR Readiness and complete a winning playbook as we countdown to STAAR! These sessions will make summative and formative connections to STAAR and will include state accountability, designated supports, TEKS monitoring, data tracking systems, as well as critical reports for teachers and leaders. Lead4ward Rockin' Review, Test Hound, and other partners will be there to help us with countdown.
